Symphony is ideal for all riders. It has been being popular in Europe since its launch. With the high quality of sales, Symphony S has built an outstanding brand image for SYM in the high wheel segment. Symphony has all you need for an entry-level scooter, ample under-seat storage, a flat floor panel, and a comfortable riding position. The new generation "Symphony" is not only keeping these features but also equipped with the LED headlight/position lights and the brand new speedometer. These evolutions make Symphony more attractive, competitive, and compliant with Euro V emission standards as well. Euro V LED headlight / position lights QC2.0 USB Socket Simple, Elegant, and Compact Appearance Hidden Hook With its stylish crafted design, the Symphony takes City Commuters where they need to go in style and comfort, thanks in part to the large 16-inch wheels, provides stability on the commute with inconsistent road conditions, patchy surfaces alongside unpredictable traffic, today's commuter has to have their wits about them, Symphony is up to the task. Efficient, quiet, capable fuel injected engines sat inside a stable, strong chassis featuring a combined braking system, the 792mm seat height helps with vision as well as handling. The led-headlamp and rear lights give the Symphony ST great visibility in all conditions to other road users giving that extra confidence to the rider. The model also has plenty of other convenient features to lift your rider experience to a higher level: spacious under seat & front storage compartments, USB charging port, folding footsteps and a 7.5-litre fuel tank for an impressive range of over 100 MPG. Due to the quality and capability of the Symphony is fast becoming a favourite for the conscientious fleet manager. Reliability, frugality, capability alongside a stunning aesthetic that adds a feeling of quality which reflects a good impression to the client that this business has standards to be relied upon.
